Investigation Follow-Up Audit Report 1926

The Department of Internal Audit completed a follow-up audit on reported issues from the Park and Recreation Department Sugaw Creek Recreation Center Cash Collection Investigation Report 1288 issued August 24, 2012. The follow-up audit objective was to determine with reasonable but not absolute assurance whether management took effective corrective action on the issues presented in the audit report.

Internal Audit staff interviewed key personnel; observed operations; reviewed written policies, procedures, and other documents; and tested specific transactions where applicable. Internal Audit conducted this audit in conformance with The Institute of Internal Auditor's International Standards for the Professional Practice of Internal Auditing.

3	Management should also test the system after vendor changes are made to ensure they are working as expected prior to putting the changes into production.	Agree. The department has taken steps to help ensure accurate fees are charged. First, the 0.0\$ fee is no longer an option in CLASS facility booking. This was removed immediately during the employee incident investigation and will continue to be implemented. Only CLASS users with Override privileges will be able to change a set fee. Date recognition: currently the CLASS system is not set up to automatically recognize the date and apply via default the correct weekday or weekend rental fees. This is being changed. Within four weeks, all facilities will be changed and only the correct default fees will show during a booking. This means it will no longer be possible to charge a patron a weekday rental fee for a weekend rental (or vice versa). Additionally, all fees are being checked and where needed corrected in CLASS. This will be reviewed yearly (fees are changed once per year) and updated as necessary. When the above changes to the CLASS system are in place, they will be tested to ensure accuracy and that the system is charging the correct rates. Monthly reviews of Override, Administrative Holds, and Temp Holds on facilities will be performed. These will be printed and	09/2012	I	
	Further, we recommend management conduct periodic reviews to ensure all fee overrides are authorized and system notes are provided to support the changes.			I

		reviewed at the end of each month by the IT Business Analyst and reviewed with Division Directors as necessary depending on the facility. This will begin on September 3, 2012 and will continue on the first working day of each month. Finally, levels of access by all current CLASS users are currently being reviewed. Many will change, with the goal to “tighten up” users and limit the number of users overall, as well as the number of Override and Administrative users. In addition, the “Frontline” user access level will be changed to “Frontline – Facility”, “Frontline – Program” and regular “Frontline.” This will enable the department to limit some staff to only Program or Facility reservation, not both as the system is currently set up. This will be completed by August 31, 2012 and will be reviewed and updated at least yearly. Additionally, internal audits by the Park and Recreation fiscal section will also now include CLASS system audits and will include reviews of fee waivers.			
4	Internal Audit recommends the Department require management to conduct periodic Class system access rights reviews and modify access as necessary.	Agree. The department’s IT Section is currently developing a protocol for routine audits of the CLASS system and access rights of employees. All user access levels are currently being reviewed. This list will be reviewed and	10/2012	I

		updated yearly. Additionally, the system is currently set up to print all past and present county employees who have ever had access to CLASS when requested to list CLASS users. This makes reviewing access levels by current staff onerous. The system is being changed and previous staff will become "inactive" in the system, allowing for more efficient regular audits of current CLASS users and access levels in the future. This change will be implemented by August 31, 2012.
