Strategic Business Plan Elements (cont’d)

**Goal:** A broad aim toward which your efforts are directed. It is a “what,” not a “how;” it tells you where you are going rather than how you will get there.

**Objective:** A specific and measurable milestone that must be achieved in order to reach a goal; it is also a “what.” A sub-level goal.

**Strategy:** A plan of action designed to achieve an objective. Strategies tell you “how” you are going to get there.

**Action:** A specific step required to deliver on a strategy. Actions are what you do and when; for every strategy, there are a number of actions.
