      i. Select a Response Type from the drop down menu. You should only select “Bid”, “Bid with Condition”, or “No Bid” from the options.
      **Note:** If you select “No Response”, you will be unable to proceed to Step 2 in MECKProcure.
      ii. Enter a Unit Price and Delivery Time for each item

          **Note:** if you select “Bid with Condition” or “No Bid”, you **MUST** enter a comment in the comments field in order to proceed to Step 2 in MECKProcure.

      **Note: There may be an error message that indicates you have exceeded the characters in NOTES field on the Bid Response – Step 1 page**
      To fix this: You have probably copy/pasted your entry in there and MECKProcure adds foreign characters due to the FONT. You need to, Copy/Paste the entry into Notepad and remove those odd characters. Then copy/paste that back into that box.

         **Note: If you get an error about Criteria Response: There may be an error message that has wording with these words in it, relates to the last criteria entry about Exceptions. Vendor will see an empty text box or may not have selected the Yes or No.**
         To fix this: This is a required field and you must put something even if you do not have exceptions. Put something like “NA” or “none” or “no exceptions”
ii. Click Save

iii. Click Go To Step 3

(3) Attach your files

i. Important notes before you proceed

1. The file size must be less than 2MB. If any files you need to upload are 2MB or larger, please break them into multiple files where each is less than 2MB. We have found Word tends to have small file sizes. Sometimes converting to a PDF from Word creates large files or has metadata that MECKProcure doesn’t like. We suggest using CutePDF Writer to convert files to PDF.

2. Do not upload any ZIP or EXE files.

3. If there are errors elsewhere in the response, files may not upload.

4. File names of attachments – File names should NOT have any special characters in them. Dashes, extra periods (more than 1), commas should NOT be included in a file name.

5. Browser could be the problem

a. Do not use Edge, Chrome or Safari. We recommend Internet Explorer or Firefox.

b. Turn off popup blockers for this website.

c. Add www.MECKProcure.com as a Trusted site in your Internet settings.
