REPORT TIMETABLE FOR DISEASES/CONDITIONS (for a complete listing of NC Reportable Disease, please call 919-715-7404)

Highlighted diseases	Category A Bioterrorism Agents/Diseases 2 (report immediately by phone) Disease/Condition with Pandemic Potential (report immediately by phone)
**	Reportable within 24 hours after the disease or condition is reasonably suspected to exist. (by phone and card)
All Other Conditions	All other conditions, report within 7 days, (by card)

*** Newly created category combining two or more reportable diseases/conditions. Five-year averages are currently unavailable.

TO REPORT DISEASES BY TELEPHONE:
Animal bite consults: Al Piercy 704.336.6440
General Diseases including Hepatitis B: Belinda Worsham 704.336.5498 Jane Hoffman 704.336.5490 Beth Quinn 704.336.5398
 Penny Moore 704.353.1270 Freda Grant 704.336.6436
Sexually Transmitted Diseases and HIV/AIDS: 704.432.1742
Suspected Foodborne Outbreaks: Bill Hardister 704.336.5533
Tuberculosis: Kristi McCray 704.432.2496
To obtain a supply of the North Carolina Communicable Disease Report Cards: 704.336.2817 or 919.715.7404

1 The cumulative number for HIV Disease (not AIDS) is 6,074 in Mecklenburg County and 33,582 in North Carolina. This figure is based on reports of confidential testing done between January 1990 - December 2007. Please note a change reflecting recent changes in North Carolina reporting, "HIV Disease" refers to all people infected with human immunodeficiency virus, with and without an AIDS defining condition. Previously data were reported separately for HIV and AIDS. Currently AIDS cases are subset of HIV disease. AIDS case reporting began in the United States in 1981 and North Carolina in 1984. HIV infection reporting began in North Carolina in January 1990 and HIV disease reporting in 2001.

2 **Category A Bioterrorism Agents/Disease** including pathogens that are rarely seen in the United States and that pose a risk to national security because they can be easily disseminated or transmitted from person to person; result in high mortality rates and have the potential for major public health impact; might cause public panic and social disruption; and require special action for public health preparedness.

No rabid animals
