- 1 Figures subject to change, diseases **emboldened** are reported within **24 hours** and 7 days for all others diseases.
- 2 This number reflects the number of AIDS cases reported this month to the North Carolina Department of Health and Human Services. As of February 1996, AIDS cases in North Carolina are attributed to year of report. The **cumulative** number for AIDS cases is **1,509** in Mecklenburg County and **11,581** in North Carolina as of June 30, 2002. The **cumulative** number of AIDS cases reported to the CDC is **816,149** as of December 31, 2000. AIDS case reporting began in 1984.
- 3 The **cumulative** number for HIV Infection (not AIDS) is **3,851** in Mecklenburg County and **22,837** in North Carolina. This figure is based on reports of confidential testing done between February 1990 – September 30, 2002.
- 4 5 Raccoons
- 5 Morbidity cards do not always indicate Penicillinase-testing results. The PPNG number is included in gonorrhea total.
- 6 NR – Not Reportable, Reportable as of February 2002
