

# MECKLENBURG COUNTY IS IN THE MIDST OF A HEPATITIS A OUTBREAK

## Are you at risk?

People in these priority populations are at risk:

Men who have sexual encounters with other men (MSM)

People who use recreational drugs,  
injected and non-injected

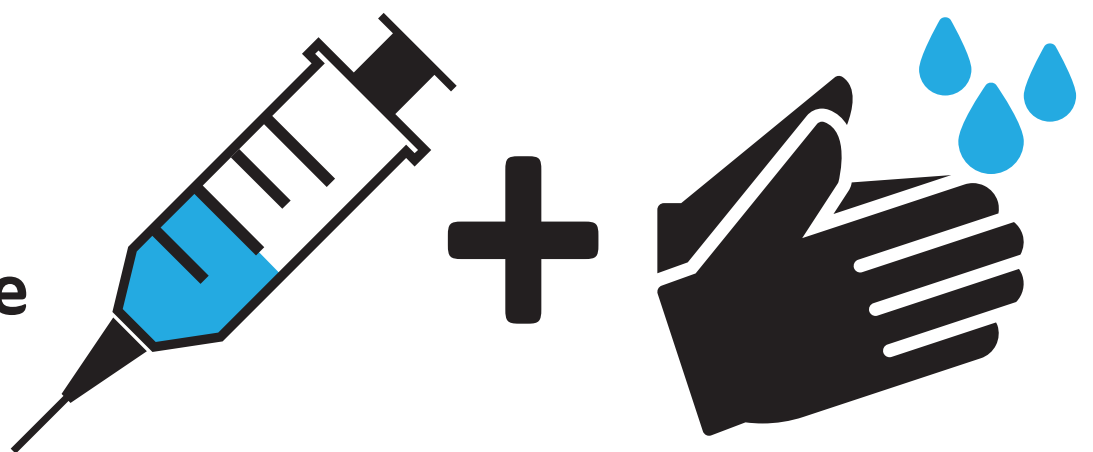

Household members, caregivers or people who  
have sexual contact with someone who is infected  
with hepatitis A

People currently homeless or in transient living

People who recently traveled from countries where  
hepatitis A is common

Ask your doctor about vaccination if you are in a priority population.

The best way to protect  
against hepatitis A and  
prevent the spread is to  
get the hepatitis A vaccine  
and wash your hands.
