

How To Report a Sexually Transmitted Disease

HIV infection, AIDS, all stages of syphilis, and gonorrhea are required to be reported within **24 hours**.

Reports can be made by calling 704- 432-1742 or faxing reports to 704- 336-6200.

All reports should include:

- disease
- patient name
- address
- telephone number
- date of birth
- race
- clinic name
- telephone number name of person making the report
- treatment

A copy of the laboratory report should be provided. The other reportable sexually transmitted diseases that are reportable within 7 days include chlamydia, lymphogranuloma venereum, NGU and PID. A communicable disease [report form](#) should be completed and faxed to 704-336-6200 or mailed to:
