

RECYCLE THE RUNWAY

APRIL 30th, 2022 | Northlake Mall @ 1pm

GENERAL GUIDELINES

Recycle the Runway offers an opportunity for high school students in public or private Mecklenburg County Schools to participate in an event which showcases their design, creation and modeling skills of a fashion outfit made from items that can be recycled by Mecklenburg County. (See “Quick Reference Guide.”)

GENERAL GUIDELINES

1. Fashions in contention for award money and prizes must be the original work of the submitting school team(s). All award money and prizes will be issued to the principals of the winning schools, not to the individual team members. While the awards can support any purpose determined at the discretion of the school, it is expected that awards will be to the benefit of students, including those that had direct participation in the event.

2. Materials used in the construction of your entry must be post-consumer, or post-industrial waste. Submissions in all categories must be comprised of at least 85% materials that can be recycled either by or within Mecklenburg County. These materials can include, but are not limited to, cardboard, steel/tin/aluminum cans, paperboard, chipboard, newspaper or other tear-able paper, pizza boxes, or aerosol cans. Paper or plastic shopping bags that are used by grocery, department and convenience stores can be used as part of the 85% rule. Plastic garbage-can bags, saran wrap, and food storage bags will only be considered toward the remaining allowable 15% non-recyclable items. Recycled fabric may only be used as a lining that doesn't show.

Please refer to the “Quick Reference Guide” for a list of recyclable items accepted by Mecklenburg County. These are the “preferred items” that are eligible to comprise 85% of your fashion. The fashions that follow these guidelines most closely will receive higher consideration in judging. Fashions that do not meet this core requirement will not be eligible to win any of the cash prizes.

3. Although recyclable by Mecklenburg County, glass AND items considered as “household hazardous waste” cannot be used as part of the submission.

4. Designers may use materials for construction such as glue, tape, dyes, marker, staples, thread, zippers, elastic, wire, Velcro, boning, buckram, grommets, laces, starch, paint, etc.

5. Each school can submit up to three outfit designs. Schools should submit a sketch of each proposed entry, along with a list of materials that will be used to construct an entry by March 28, 2022.

6. All team participants must have a signed Photo Release on file with their school. Contact your school's administration office for this form.

WipeOutWaste.com

7. For each entry, the school must submit the following via email by April 15, 2022 in order to qualify:

- Approximately 10–15 photos in jpeg format. The photos should highlight the progression of the entry as it's created. One photo must be of the school itself (please include the name of the school in this photo). Another photo must be a group picture of the design team. The remaining photos should document the steps (or stages) in the design process. All submitted photos will become property of Mecklenburg County Solid Waste.
- Written information for each entry. This should include the name of your school, a descriptive summary of your entry, the materials used in its design (including a breakdown of materials used, totaling at least 85% recycled materials. [ex: 30% newspaper, 25% pizza boxes, 30% plastic bottles]). If possible, please include an environmental 'factoid' within this written description that addresses how the materials incorporated within your fashion are commonly disposed of and the benefits of reusing these items in another, more creative way. Please be sure to incorporate the Recycle the Runway messages of waste reduction and finding creative reuse ideas for recyclable materials. Do your best to make this description both entertaining and appropriate for all ages. The length of the description should not exceed 60 seconds when read aloud. The quality of your commentary will be considered part of your overall score. Points will be deducted for commentary that doesn't fulfill the listed requirements.
- The quality of your commentary will be considered part of your overall score. Judging points will be deducted for commentary that doesn't fulfill the requirements outlined above and/or is received past the April 15, 2022 deadline.

ECO-FASHION OUTFIT GUIDELINES

1. Entries will be evaluated by an independent panel of judges on the day of the event. All other awards will be determined by the judging panel and winners will be notified by phone no later than May 6, 2022. Arrangements will also be made at that time for award ceremonies at the schools, or to make other provisions to deliver the awards.
2. The expected competition categories are:
 - Most Creative Use of Recycled Materials
 - Greatest Number of Different Recycled Materials
 - Best in Show
3. Entries will be evaluated on:
 - Creativity
 - The diversity of the materials utilized in the fashion. This category will be scored by the material % breakdown
 - Adherence to the competition rules
 - The environmental message conveyed to the audience (by both the fashion and the written/verbal description)
 - Overall success achieved in implementation
4. Footwear made from recyclable materials is preferred, however, regular street shoes are acceptable. Shoes must be safe to walk in.
5. Good workmanship is encouraged. Garments should fit the model and should be durable enough to survive the show.
6. Designs should be repairable at the show (if needed).
7. The design must be a wearable fashion and consist of (at minimum) bodywear, one piece of jewelry and shoes. Outfits can not be suggestive in design or expose areas of the body usually covered by clothing in a multi-age environment. Appropriate underclothing is also required. See your school's Dress Code policy for additional guidance.
8. School registration is required for teams to participate. Contact Aaron Caudle at Aaron.Caudle@mecklenburgcountync.gov
