Athletic Conditioning: A total body circuit that combines athletic cardio movements with strength exercises to improve overall fitness, tone, strength and cardio endurance.

*Intensity Level: High

Cycle Ride: This fun and energizing cycling class is designed for all fitness levels which will include various cycling drills that offer an exhilarating cardio workout.

*Intensity Level: Moderate

Full Body Blast: A total body circuit that focuses on functional movements and interval training. This is a challenging class that will build strength, endurance, and coordination. Full Body Blast is great for those that are short on time and need a morning or midday sweat session.

*Intensity Level: Moderate - High

HIIT-Cardio Strength and Endurance: A total body workout that combines short bursts of intense exercises, followed by a short period of active recovery strength/aerobic exercises. HIIT-CSE is designed to improve athletic capacity, conditioning, strength, and endurance.

*Intensity Level: High

Rhythmic Cycle: Music will lead the way! Pedal through this fun, full body workout while lifting your spirit, clearing your mind, and transforming your body.

*Intensity Level: Moderate

Strength.Cardio.Core.: Push yourself to the max with this high energy workout combining strength and cardio movements to reach your ultimate goals.

*Intensity Level: Moderate - High

Silver Sneaker Classic: Increase muscle strength and range of movement, and improve activities for daily living. You'll have a chair for seated exercise and standing support. Your instructor can modify the exercises for your fitness level.

*Intensity Level: Low-Moderate

Total Body Resistance: This low impact total body workout that focuses on muscle strength and toning. This class is perfect for those that are looking for light cardio and strength training.

*Intensity Level: Low - Moderate

TRX Suspension Training: Challenge yourself through a variety of total body exercises using only your bodyweight and our TRX suspension trainers. All exercises can be modified for little resistance to complete bodyweight.

*Intensity Level: Moderate

T3 (Tummy, Thighs, and Tush): This workout will focus on strengthening and toning the abs, legs, lower back, and glute muscles through isolated exercises & movements using light weights.

*Intensity Level: Moderate

Upper Body Core & More: This upper body strength and toning class will focus on abs, back, shoulders, chest, and arm muscles with added in total body movements

*Intensity Level: Moderate - High

Vinyasa Yoga: This form of yoga will focus on flexibility by moving fluidly from one pose to another while connecting their breath.

*Intensity Level: Moderate

Walk n' Talk: Get fit while making friends & listening to your favorite tunes as we walk our way to better health in this is a low-impact cardio workout. There are optional exercise stations along your walk to add to your walking workout.

*Intensity Level: Low
