Paved Greenway = 0.79 Mile  
Entrances = 400 Feet

### Legend:

Parking	Streets
Greenway Developed	Bicycle Route (Proposed)
Neighborhood Entrance	Park Property
Streams	School Property

### Items of Interest:

This section of Little Sugar Creek Greenway is a haven for raptors. Barred Owls nest on the greenway and can be heard throughout the day, especially in the late winter and early spring. The careful observer can find species of hawks: Red-tailed, Red-shouldered, Cooper's, and Sharp-shinned. Ospreys have even been spotted following the creek corridor during spring and fall migration.
