

## North Carolina Weatherization Assistance Program

### ***What is Weatherization Assistance?***

The Weatherization Assistance Program helps low-income North Carolinians save energy and reduce utility bills. The program is administered through the North Carolina Energy Office ([www.energync.net](http://www.energync.net)) in the N.C. Department of Commerce ([www.nccommerce.com](http://www.nccommerce.com)). Program funding includes \$9.7 million annual funding from the U.S. Department of Energy ([eere.energy.gov/wip/](http://eere.energy.gov/wip/)) and nearly \$132 million from the federal Recovery Act ([www.recovery.gov](http://www.recovery.gov)).

The mission of the North Carolina Weatherization Assistance Program is to improve energy efficiency, household safety, and to educate the public about maintaining energy efficiency. The program's focus is on the elderly, the disabled, families with children, high energy users and the energy burdened. The goal of the Weatherization Program is to keep North Carolina citizens warm in the winter, cool in the summer, and safe all year long.

Weatherization assistance is available for single-family homes, apartments, condominiums, and mobile homes. You DO NOT have to own your own home to be eligible. Renters MUST have written permission from their landlord.

### **In North Carolina, trained evaluators and staff do the following:**

- Educate customers in safety and energy efficiency
- Evaluate single-family and multi-family dwellings, and mobile homes for safety and energy efficiency
- Use the latest technological to determine cost effective methods to make customer's homes safer and energy efficient
- 

### **Home inspections include:**

- Testing for gas leaks, carbon monoxide, and other health and safety issues
- Checking combustible appliances such as stoves, furnaces, and water heaters
- Tuning, repairing, or replacing heating equipment
- Sealing air infiltration sites; installing attic, wall and floor insulation; sealing leaky ducts adding ventilation
- Installing fire and carbon monoxide detectors
- Installing baseload (compact fluorescent lights) and general heat waste (water heat wrap, pipe insulation, low flow shower heads) measures

**What the Weatherization Program does:**

- Educates clients in safety and energy efficiency
- Professionally evaluates single family dwellings, multi family dwellings, and mobile homes for safety and energy efficiency
- Tunes, repairs or replaces heating and air systems as needed
- Insulates attics, floors and walls as needed
- Makes minor repairs to homes for health and safety reasons
- Installs smoke and carbon monoxide detectors
- Performs baseload and general heat waste measures

**What the Weatherization Program DOES NOT do:**

- Rehabilitate homes
- Replace doors
- Replace windows
- Make major home repairs such as new roofs, new floors, plumbing, electric work
- Build additions
- Paint (other than areas disturbed by weatherization work)
- Lay carpet
- Lead based paint and asbestos abatements
- Mold remediation

Minor repairs are secondary measures and are not done unless regular weatherization work is needed. The Weatherization Program is not a Rehab program. It is an energy conservation program with an emphasis on the health and safety of the client. Household energy savings can be up to \$300 year a year after weatherization assistance. Households that receive weatherization assistance may also get help through the Heating and Air Repair and Replacement Program. This offers replacement of inefficient heating and air systems.

***Who is Eligible?***

Families with incomes below 200% of the federal poverty guidelines or those receiving cash assistance payments under Work First or Supplemental Security Income (SSI) are eligible for weatherization services. More than 3,000 North Carolina families benefit from the program annually. Priority is placed on providing assistance to the elderly, individuals with disabilities and families with children.

**INCOME LEVELS**

Family Size	Unit Threshold	200% of poverty guideline
1	\$10,830	\$21,660
2	\$14,570	\$29,140
3	\$18,310	\$36,620
4	\$22,050	\$44,100
5	\$25,790	\$51,580
6	\$29,530	\$59,060
7	\$33,270	\$66,540
8	\$37,010	\$74,020
+ 8	add \$3,600	or add \$7,200

**What will you need when you apply for Weatherization Services?**

1. Monthly income verification for all occupants.
2. Energy bills or a print out from your utility company.
3. Proof of ownership of property to be weatherized (or written permission from your landlord).

**What happens to my home during the weatherization process?**

The first step in the process is for your local weatherization agency to perform an energy audit. The energy audit is an onsite inspection of your home and an analysis of which energy efficiency measures are best for your home. When the audit is complete, the auditor or inspector from the local weatherization agency will meet with your family to explain how the work crews will do the work. When the weatherization process is complete, an inspector will make certain that everything is working properly and that nothing was missed.

## Heating and Air Repair and Replacement Program

**What is the Heating and Air Repair and Replacement Program?**

The Heating and Air Repair and Replacement Program works in concert with the Weatherization Assistance Program to repair and/or replace inefficient heating and air systems in the homes of low-income families, especially the elderly, individuals with disabilities and families with children.

**Who is Eligible?**

Families with incomes below 150% of the federal poverty guidelines are eligible. Priority is placed on providing assistance to the elderly, individuals with disabilities and families with children. Heating and Air Repair and Replacement Program assistance is available for single-family homes, apartments, condominiums, and mobile homes. You do not have to own your own home to be eligible. Renters must have written permission from their landlord.

**INCOME LEVELS**

Family Size	Unit Threshold	150% of poverty guideline
1	\$10,830	\$16,245
2	\$14,570	\$21,855
3	\$18,310	\$27,465
4	\$22,050	\$33,075
5	\$25,790	\$38,075
6	\$29,530	\$44,295
7	\$33,270	\$49,905
8	\$37,010	\$55,515
+ 8	add \$3,600	or add \$6,545

**How to apply for Weatherization and/or Heating and Air Repair and Replacement Program?**

Applications must be placed with the designated local service provider for the county in which you live. Start the application process by contacting the appropriate designated local service provider. You will be required to provide proof of income for everyone in your household.

Examples of the documents needed are pay stubs, social security payments, and child support payments for the past year. The local service provider may ask additional documentation.
