

Mimi Curlee has been a Librarian with the Charlotte Mecklenburg Library since 1991. She has a Masters in Library Science and is the Library's Federal Documents Librarian. Using Census data to solve reference questions and add information to projects has allowed her to become familiar with the importance of this data to a wide variety of individuals and organizations within our community. As a native of Charlotte, she grew up on the east side and graduated from Garinger High School and UNCC.
