NC Lead-Based Paint Hazard Management Program

- Lead Paint Abatement Program
- Renovation, Repair and Painting Program
Health Hazards Control

Lead-Based Paint Management

The North Carolina Department of Health and Human Services, Division of Public Health, Health Hazards Control Unit (HHCU) administers two Lead-Based Paint Hazard Management programs in the state of North Carolina in lieu of EPA: one for Abatement Activities (LHMP) and the other for Renovation, Repair and Painting (LHMP-RRP).

Through these programs, the HHCU provides information to the public and to business and industry about the health hazards of lead-based paint and ways to control or prevent lead poisoning. The HHCU certifies firms and individuals conducting lead-based paint abatement activities and/or renovation activities, accredits training providers and courses, and issues permits for lead-based paint abatement projects that occur in child-occupied facilities and housing built before 1978. The HHCU also inspects lead-based paint abatement and renovation projects.

For more information on the management of lead-based paint hazards in North Carolina, contact the Health Hazards Control Unit at (919) 707-5950.

Learn more:
- N.C. Lead Hazard Management Program for Abatement Activities (LHMP)

NC LHMP -

Lead Paint Abatement

- Lead-Based Paint Hazard Management Program
  Article 19, N.C. Gen. Stat. § 130A-453
  NC Rules: 10A NCAC 41C .0800

- LBP Poisoning Prevention Residential Structures
  40 CFR Part 745 Subpart E and Subpart L
Abatement vs. Renovation

Both programs regulate work done in pre-1978 housing and child-occupied facilities,

But the work is conducted for different reasons
